Technical Leadership

- Mentoring
- Team Leadership
- Cross-functional Collaboration
- Technical Strategy
- Engineering Excellence
- Product Innovation

Full Stack & Backend

- Java
- Python
- Vue.js
- Node.js
- Microservices
- API Development
- PostgreSQL
- Elastic Search

AI & Machine Learning

- Generative AI
- AI Agents
- AI Product Design
- OpenAI APIs
- Translation Systems
- RAG Pipelines

Summary

Accomplished software engineer with 10+ years of experience in full-stack development and technical leadership. Proven track record in driving impactful teams and delivering high-quality solutions, including AI-driven systems generating \$1.5M+ revenue. Passionate about mentoring engineers and creating streamlined processes that enhance user experience and operational efficiency in health technology.

Work Experience

Beekeeper AG

03/2020 - Present

Senior Software Engineer (Technical Lead)

Leading the engineering team to innovate and build solutions that empower users with actionable insights through scalable systems and AI-driven features.

- Led architectural design of Employee Referral System, generating \$1.5M+ revenue including \$500K ARR with a 99.99% SLA.
- Drove development of Beekeeper's Templating Engine, reducing setup time by 90% and increasing engagement across 15% of platform assets.
- Engineered a search interface for over 10M users, boosting user engagement and platform adoption significantly.
- Assembled and cultivated high-performing remote teams, enhancing code quality and customer-centric solutions while improving team velocity.
- Designed and deployed advanced Generative AI translation system that saved \$337K and expedited go-to-market last year.
- Mentored junior engineers while owning end-to-end delivery of key features, nurturing the engineering culture and fostering growth mindset.
- Led cross-functional initiatives with Product to align delivery with business goals, including analytics and sentiment analysis projects.

Tenity

06/2024 - Present

Startup Mentor & Technology Evaluation Panelist

Guiding startups through technical strategy and innovations, focusing on scalable solutions that drive growth.

- Conducted comprehensive technology evaluations for emerging startups, enabling impactful and scalable solution development.
- Advised on technical hiring and AI integration, helping startups optimize their operational performance.

Dronistics

08/2016 - 03/2020

Founding Software Application Developer

Contributed to the development of an autonomous drone delivery platform, facilitating efficient logistics and operational scalability.

- Delivered complete software/cloud stack for an autonomous drone system utilized in over 500 last-mile deliveries.
- Engineered APIs and optimization algorithms, reducing delivery times by 40% while maintaining a 99.5% safety record.
- Collaborated with major firms like Unilever to showcase the technology at CES Las Vegas, enhancing brand visibility.

EPFL — Laboratory of Intelligent Systems (Robogen)

01/2017 - 01/2020

Research Software Developer

Led the engineering of an innovative open-source platform for the co-evolution of robotic systems, contributing to significant research advancements.

- Spearheaded migration to AWS, securing credits and improving computational capabilities showcased in AWS research publications.
- Supervised over 20 master's students, guiding robotics and AI projects that received industry recognition.
- Developed groundbreaking research impacting evolutionary robotics, enhancing academic partnerships and visibility.

DevOps & Infrastructure

- CI/CD
- AWS
- Kubernetes
- Docker
- Monitoring & Observability
- Deployment Automation

Product & Business

- Product Ownership
- Revenue Generation
- Go-to-Market
- A/B Testing
- Stakeholder Management
- Strategic Roadmaps

Languages

English (Professional Working)
German (Beginner)

Certificates

- Building Modern Java Applications - AWS
- Build LLM Apps with LangChain - DeepLearning.AI
- Microsoft Certified Professional (MCPS) - Microsoft
- MongoDB for Java Developers - MongoDB University

Interests

- AI & Creativity
- Health Technology
- Startup Mentoring
- User Experience Design

Awards

- AWS Cloud Credits for Research - Amazon Web Services (2020)
- KTH Opportunities Fund - KTH Royal Institute of Technology
- TI India Analog Design Contest Winner - Texas Instruments

Entrepreneurial Projects

PulseView - AI Market Intelligence · <https://pulse-view.anand-creations.com>05/2025 - Present

Founder & AI Product Builder

- AI-Powered Analysis: Built real-time stock market analysis platform using AI agents to generate and explain trading signals
- Technical & News Integration: Based on technical and news-based insights for comprehensive market analysis
- Focus Areas: Explainable AI, speed, and clarity in financial analysis

Proplab - AI Real Estate Tools · <https://proplab.io>09/2025 - Present

Founder & AI Product Builder

- MVP Development: Designed and built MVP for fully digitalized property inventory inspection system, replacing manual workflows
- AI Marketing Assistant: Currently leading development of AI-powered marketing assistant to automate listing creation
- Structured Protocols: Implemented structured, image-backed protocols for property inspection

SwissNRI - Cross-border Fintech Platform · <https://www.swissnri.com>01/2024 - Present

Co-Founder & Technical Lead

- Market Innovation: Launched first platform addressing complex cross-border financial challenges for Indian nationals in Switzerland
- Zero-to-One Product Development: Led development from concept to MVP in 3 months, acquiring early users
- Customer-Driven Iteration: Established regular customer feedback loops driving product roadmap prioritization

Education

Quantic School of Business and Technology MBA Business Administration	2019 - 2020
EIT Digital Master (Programme) Innovation & Entrepreneurship	2014 - 2016
Eindhoven University of Technology (TU/e) MSc (Netherlands) Embedded Networking	2015 - 2016
KTH Royal Institute of Technology MSc (Sweden) Embedded Systems	2014 - 2015
Amrita Vishwa Vidyapeetham Bachelor of Engineering Electronics and Communication	2010 - 2014
