Applied AI transformation leader who advises executives and then ships the AI that proves the case. I own AI transformation end to end at LumApps (agents that 2x conversions and forecast \$1M in quarterly revenue) and run my own practice, Anand Creations, taking enterprises from strategy through adoption. Hands-on across the modern stack: LLMs and multi-agent orchestration (LangGraph, MCP, ReAct), RAG and knowledge graphs, on OpenAI, Anthropic and Claude, GCP and AWS. MBA-trained, a frequent conference speaker and writer, with 13+ years advising founders and C-suite leaders (Tenity, 20+ companies) and mentoring the teams who carry the work.

Change Management

Python

- Own applied AI transformation from strategy to production: multi-agent systems (LangGraph, MCP, ReAct) on GCP, reported to C-level. 2x conversions and a forecast \$1M in quarterly revenue.
- Drove enterprise AI adoption and change: turned GenAI into repeatable operating processes and a reusable context layer teams run day-to-day.
- Advise C-level on AI strategy and feed field insights back into product and roadmap.
- Expanded scope to company-wide AI transformation strategy, governance, and enablement, bridging engineering, product, and revenue.

Security

- Drove enterprise AI adoption and built the business case: an onboarding agent guided 100% of customers, and a GenAI demo system for sales lifted close rates with measurable value.
- Delivered measurable impact: replaced \$337K in vendor cost with an LLM pipeline; Employee Referral became the top revenue channel (\$1.5M+, \$500K ARR).
- Built and mentored the AI engineering team (deputy tech lead), led 3 teams, and raised AI capability across the org.
- Owned enterprise-grade delivery on AWS and Kubernetes for 10M+ users, with security and reliability built in.

Mentoring

- Trusted advisor to founders and investors: AI strategy, readiness, and architecture across 20+ companies, informing go/no-go decisions.
- Facilitated technical discovery and mentored teams, shaping AI adoption direction under scrutiny.
- Mentored Opt Alpha on scaling high-frequency trading systems in production, and helped portfolio companies build the case for where AI creates real value.

Teaching

- Built Robogen, an open-source AI platform scaled on AWS. Secured AWS Cloud Credits for Research; featured on the AWS Public Sector Blog.
- Taught 20+ master's students hands-on: translating complex AI concepts for others, the core of workshops and enablement.

ENTREPRENEURIAL PROJECTS

Anand Creations - Applied AI Transformation Practice · <https://anand-creations.com>

06/2024 - Present

Founder & Principal

Independent practice: I advise leaders on AI strategy, then embed with their teams to take GenAI from thesis to adopted production, and codify each engagement into reusable blueprints and reference architectures. The full arc from executive advisory to hands-on delivery.

- Turn strategy into shipped, adopted AI and reusable blueprints. Flagship: the GTM AI Brain, a knowledge-graph layer shared across every agent.

SwissNRI - Regulated AI Platform · <https://www.swissnri.com>

01/2024 - Present

Co-Founder & Technical Lead

AI-native cross-border tax and compliance platform in a regulated domain. RAG-grounded answers with citations to source regulation; security and regulatory guardrails built before features. Enterprise-grade AI that complies while it scales.

PulseView - Explainable AI Market Intelligence · <https://pulse-view.anand-creations.com>

05/2025 - Present

Founder & Builder

Real-time market intelligence where a multi-agent system generates signals with the evidence chain that justifies them. Explainability and evaluation built in for trustworthy, governable AI. Live users.
