Companies Founded

Builder and advisor at the intersection of AI, business transformation, and measurable revenue. Owns LumApps' AI program end-to-end, reporting to C-level on outcomes: production agents forecast to generate \$4M in approved opportunities per quarter. Shipped \$1.5M+ in new product revenue and eliminated \$337K in vendor cost at Beekeeper, co-owning GTM with Sales and PM. Founded three companies on the side; advise 20+ startups on AI and architecture as Tenity's Technology Evaluation Panelist. MBA, EPFL research background.

WORK EXPERIENCE

LumApps · Senior AI Engineer

03/2026 - Present

AI Strategy AI Transformation Sales Enablement Executive Reporting Python LangChain Neo4j GCP Governance

- Owns AI transformation strategy and governance across the company. Translates AI capability into executive decisions; the kind of mandate a Principal Consultant would deliver, owned from inside.
- Built and shipped production AI agents for outbound sales. 2x open rates, 2x approved opportunities, 2 to 3 hours saved per rep per day. Forecast: \$4M in approved opportunities per quarter; \$1M quarterly revenue at 25% conversion.
- Built AI Brain, a knowledge-graph context layer that surfaces business patterns driving strategy across product, sales, and CS. Turns AI investment into measurable, executive-readable insight.

Beekeeper AG · Senior Software Engineer (Technical Lead)

03/2020 - 02/2026

Revenue Ownership GTM Cross-functional Leadership AI Strategy Hiring & Mentoring Java Python OpenAI LangChain
Kubernetes AWS

- Architected Employee Referral System end-to-end as Tech Lead of the Incubation team (reporting to CIO). Became the platform's top revenue channel: \$1.5M+ generated, \$500K ARR. Built the team and ran GTM with Sales and PM.
- Replaced \$337K in annual vendor translation costs with an LLM pipeline shipped in 6 weeks. 12K+ assets translated. Direct, measurable client value from AI investment.
- Co-owned GTM launches across Product and Sales (Seasonal Templates, Re-ignite Revenue, Sentiment Analysis). Each shipped with instrumentation; killed what did not move the needle within a week.
- Hired and mentored the AI engineering cohort; deputy tech lead of FUEL. Built engineering culture around shipping measurable business outcomes, not artefacts.

Tenity · Startup Mentor & Technology Evaluation Panelist

06/2024 - Present

AI Advisory Startup Evaluation C-level Mentoring Technical Due Diligence Investment Decisions

- Evaluated 20+ startups on AI readiness, architecture, and scalability. Findings directly inform seed-to-VC investment decisions; the closest analog to senior advisory mandate work in my profile.
- Advised portfolio companies on AI strategy, technical hiring, and engineering culture. Mentored Opt Alpha on scaling high-frequency algorithmic trading systems in production.

Obermatt · Technical Product Manager (concurrent side role)

07/2018 - 01/2021

Product Management Roadmap Ownership Remote Team Leadership Stakeholder Management Docker Agile

- Built strategic product roadmaps that improved customer satisfaction and retention. Translated business priorities into engineering execution; the consulting-to-delivery handover in microcosm.
- Directed a remote engineering team. Introduced agile methodologies; productivity up 20%. Improved CI/CD with Docker; deployment times down 30%.

Dronistics · Founding Engineer

08/2018 - 03/2020

Founding Engineer Enterprise Partnerships Customer-facing Technical Lead AWS Real-time Systems

- Architected end-to-end platform that enabled enterprise partnerships with Unilever and a CES Las Vegas showcase. Customer-facing technical credibility from the founder's seat.
- 500+ autonomous deliveries; 40% faster, 99.5% safety record, zero incidents. Production-grade reliability that customers and partners could trust.

EPFL ResearchAI FoundationsAWSTeaching & MentoringGenetic AlgorithmsC++Python

- Engineered Robogen at one of Europe's leading AI labs. Open-source platform for co-evolution of robot bodies and brains via genetic algorithms.
- Migrated simulation pipeline to AWS; secured AWS Cloud Credits for Research; work featured on the AWS Public Sector Blog. Real example of translating academic work into industry-visible outcomes.
- Teaching Assistant for Evolutionary Robotics at EPFL. Supervised 20+ master's students. Early reps at translating technical depth into stakeholder understanding.

ENTREPRENEURIAL PROJECTS

SwissNRI - AI Cross-border Fintech · https://www.swissnri.com01/2024 - Present

Co-Founder & Technical Lead

Co-founded the first AI-native platform for Swiss-Indian families navigating FEMA, DTAA, and Swiss tax regulations. Built the business from market gap to live users in a regulated space.

- Zero-to-MVP in 3 months. RAG-grounded tax assistant with citations to source regulation; AI agents flag DTAA/FEMA risks before users file. 40% uplift in satisfaction from feedback-driven iteration.

Proplab - AI for Real Estate · https://proplab.io09/2025 - Present

Founder & AI Product Builder

Founded an AI-native platform for small real estate teams. Vision models turn inspection photos into structured records; LLM agents turn those records into marketing-ready listings.

- End-to-end agent workflow from photo capture to published listing. Identified market gap, built MVP, shipped to early customers solo.

PulseView - AI Market Intelligence · https://pulse-view.anand-creations.com05/2025 - Present

Founder & Builder

Founded an explainable AI market intelligence platform. Built for my own trading portfolio first, then opened to retail traders.

- Live users, real money, end-to-end multi-agent system shipped solo while operating as principal engineer at LumApps. Demonstrates speed and accountability in parallel.
