3

Companies Founded

Engineering leader with 10+ years scaling production systems and multi-team delivery (10M+ users at Beekeeper, \$1.5M+ ARR products at 99.99% SLA). Operates as the trusted execution partner: ships platforms end-to-end, runs delivery cadence across multiple teams, owns vendor spend. Founder of three companies including PulseView (real-time AI market intelligence with explainable trading signals) and SwissNRI (compliance-first cross-border fintech across Swiss and Indian regulatory regimes). MBA-trained on translating technical risk, budget, and timeline into board-ready decisions.

WORK EXPERIENCE

LumApps · Senior AI Engineer

03/2026 - Present

Python LangChain FastAPI GCP AI Agents OpenAI RAG Neo4j Graphiti Zep Sales Enablement

- Reports directly to C-level on outcomes, not progress. Owns company-wide AI transformation strategy, governance, and sales enablement.
- Led end-to-end from architecture (LangChain, FastAPI, GCP) through rollout. Built production AI agents driving 2x open rates and forecast \$4M in approved opportunities per quarter.
- Built AI Brain, an intelligent context layer unifying conversation data, usage analytics, and notes. Surfaces business patterns that drive strategy across product, sales, and CS.

Beekeeper AG · Senior Software Engineer (Technical Lead)

03/2020 - 02/2026

Java Python Vue Kubernetes AWS OpenAI LangChain Kafka PostgreSQL Elastic Search Jenkins GitHub Actions ClickHouse Claude Langfuse CrewAI Strands Agents

- Led Search Platform revamp across 3 engineering teams. Redesigned indexing and ranking, aligned stakeholders, delivered on schedule. Measurable lift in user engagement.
- Architected Employee Referral System end-to-end. Became the platform's top revenue channel (\$1.5M+ generated, \$500K ARR). Designed for 99.99% SLA because customer trust is measured in uptime.
- Replaced \$337K in annual vendor translation contract with an in-house LLM pipeline shipped in 6 weeks. 12K+ assets translated since Jan 2024. Direct vendor spend control.
- Built and mentored the AI engineering cohort as acting hiring manager. Hired for craft and curiosity, grew engineers who now lead features independently. Deputy tech lead of FUEL.

Tenity · Startup Mentor & Technology Evaluation Panelist

06/2024 - Present

High-Frequency Trading Algorithmic Trading Low-Latency Systems Technical Due Diligence AI Strategy Scalability

- Mentored Opt Alpha on scaling high-frequency algorithmic trading systems in production. Low-latency distributed systems, deployment cadence, operational resilience.
- Evaluated 20+ startups on technical architecture, scalability, and AI readiness to inform seed-to-VC investment decisions. Same lens used in M&A technical due diligence.

Dronistics · Founding Engineer

08/2018 - 03/2020

Java Vue PostgreSQL AWS Docker CI/CD Real-time Systems Low-Latency APIs Logistics Optimization

- Built cloud infrastructure and CI/CD pipeline from scratch. Enterprise-grade reliability that enabled partnerships with Unilever and a CES Las Vegas showcase.
- Engineered real-time flight control APIs and logistics optimization algorithms. 40% faster deliveries, 99.5% safety record, zero incidents across 500+ live flights.

EPFL, Laboratory of Intelligent Systems (Robogen) · Research Engineer

08/2016 - 07/2018

C++ Python AWS Distributed Computing Genetic Algorithms Neural Networks Webots

- Migrated the simulation pipeline to AWS for large-scale parallel evolution runs impractical on local hardware. Secured AWS Cloud Credits for Research, work featured on the AWS Public Sector Blog.
- Teaching Assistant for Evolutionary Robotics at EPFL. Supervised 20+ master's students through hands-on projects in genetic algorithms, neural controllers, and embodied AI.

PulseView - AI Market Intelligence · <https://pulse-view.anand-creations.com>05/2025 - Present

Founder & Builder

Real-time stock market analysis platform: AI agents that generate AND justify trading signals using technical and news-based data. Built for my own trading portfolio first, opened to retail traders after self-validation.

- Real-time market analysis via AI agents that generate and justify trading signals using technical and news-based data. Live users on real-time market feeds.
- Core product principle: if the model can't explain the signal, it doesn't ship. Explainability over complexity, controls-by-design from day one.

SwissNRI - Cross-border Fintech Platform · <https://www.swissnri.com>01/2024 - Present

Co-Founder & Technical Lead

Compliance-first SaaS for Swiss-Indian families navigating FEMA, DTAA, and Swiss regulations. First digital platform addressing this cross-border regulatory surface.

- Compliance-first architecture: regulatory guardrails for both Swiss and Indian jurisdictions built before features. Zero-to-MVP in 3 months.
- Customer feedback loops drove 40% uplift in satisfaction. Roadmap owned by what users actually asked for, not what was easy to build.

Proplab - AI Real Estate Tools · <https://proplab.io>09/2025 - Present

Founder & Builder

Indie AI initiative replacing paper-based property inspections with structured, image-backed, timestamped digital records.

- Shipped MVP replacing paper-based inspection workflows with structured, image-backed, timestamped records.
- Building AI marketing assistant that auto-generates property listings from inspection data. One workflow, zero copy-paste.
