Founded 3 companies on the side (SwissNRI, Proplab, PulseView) and run Anand Creations, a studio for AI-native products taken from concept to real customers solo. Lead AI Engineer at LumApps reporting directly to C-level, and Startup Mentor at Tenity where I evaluate 20+ startups per year for seed-to-VC decisions. MBA (93.2%), 4 international conference talks, hired and mentored engineers who now lead independently. 13+ years across engineering, product, GTM, hiring, and partnerships (Unilever, CES).
