GenAI Products 0→1	Revenue Shipped	Users Served	Conference Talks

Product-owner-by-instinct who ships GenAI 0-to-1 and leads the specialists doing the deep work. Founded 3 AI products solo (SwissNRI, Proplab, PulseView), each from customer conversation to validated build in weeks. Lead AI Engineer at LumApps steering prompt engineering, RAG, evals, and AI safety across a production multi-agent system (2x conversions, \$1M forecast quarterly). MBA (93.2%), 20+ startups advised at Tenity, Product Owner of Beekeeper features used by 10M+ users. Comfortable equally in a customer interview, a workshop, and a vibe-coded prototype I built the same afternoon.

WORK EXPERIENCE

LumApps · Lead AI Engineer [▶ Watch demo](#) 03/2026 - Present

- GenAI Product Ownership
- Customer Discovery
- Prompt Engineering
- RAG
- Evaluation Pipelines
- AI Safety
- Agentic Workflows
- LangGraph
- Google ADK
- MCP
- Leading Specialists
- 0-to-1

- Own AI product delivery end to end: customer discovery, prototype, production, and adoption. Reports to C-level on outcomes. Multi-agent system: 2x open rates, 2x approved opportunities, \$1M forecast quarterly.
- Lead the specialists (prompt engineering, RAG, evals, agentic workflows, AI safety) across a production stack: LangGraph, Google ADK, MCP, AG-UI, LangSmith. Translate their craft into decisions the org can ship.
- Design AI Brain, a temporal knowledge graph on Graphiti/Neo4j grounding every agent. Kill or scale ideas based on eval results and real user signal, not opinion.

Tenity · Startup Mentor & Technology Evaluation Panelist 06/2024 - Present

- Customer Discovery
- Founder Coaching
- AI Product Strategy
- Hiring Specialists
- Workshop Facilitation

- Interviewed and evaluated 20+ startups on architecture, scalability, and AI readiness for seed-to-VC decisions. Customer-discovery muscle built on real founders under time pressure.
- Advised portfolio companies on GenAI product strategy, hiring specialists, and running discovery-led cultures that ship.

Beekeeper AG · Senior Software Engineer (Technical Lead) & Product Owner 03/2020 - 02/2026

- Product Ownership
- GenAI 0-to-1
- Continuous Discovery
- GTM
- Cross-Functional Leadership
- Hiring Specialists
- AI Strategy
- Vue
- OpenAI
- Claude
- LangChain

- Product Owner of the distributed templating engine that cut customer setup time 90% and powers 15% of all assets on the platform (10M+ users). Ran the discovery, defined the epics, shipped through 3 teams.
- Replaced \$337K/yr in vendor translation costs with an in-house LLM pipeline shipped in 6 weeks. GenAI 0-to-1: prototype to production, no gatekeepers.
- Built and led the AI engineering cohort. Hiring manager for AI roles; grew specialists who now lead features independently.
- Co-owned cross-functional GTM launches with Sales and PM (Employee Referral \$1.5M+ revenue, Sentiment Analysis, Re-ignite Revenue). Every launch shipped with instrumentation so we knew within a week if it moved the metric.

Obermatt · Technical Product Manager (concurrent side role) 07/2018 - 01/2021

- Product Management
- Customer Interviews
- Roadmap & Strategy
- Remote Team Leadership
- Agile

- Bridged business and engineering on a financial-analytics product. Ran discovery with customers, built roadmaps that lifted satisfaction and retention.
- Directed a remote engineering team; agile practices lifted productivity 20%; Docker CI/CD cut deployment time 30%.

Dronistics (EPFL spin-off) · Founding Engineer 08/2018 - 03/2020

- Founding Team
- Safety-Critical Systems
- Partnerships
- Customer Discovery
- Prototype to Production
- Industrial

- Founding engineer for an autonomous drone delivery startup in a safety-critical industrial domain. Shipped the full product from empty repo to 500+ real-world deliveries (99.5% safety record).
- Ran discovery with Unilever and secured a CES Las Vegas showcase. Turned prototype demos into narratives partners bought into.

Proplab - AI-Native Property Workflows · <https://proplab.io>09/2025 - Present

Founder & AI Product Builder

0-to-1 GenAI product for real estate. Ran discovery with agents, vibe-coded the vision pipeline in days: photos to structured records to multilingual listings, one workflow, zero copy-paste.

PulseView - Explainable AI Market Intelligence · <https://pulse-view.anand-creations.com>05/2025 - Present

Founder & Builder

Real-time market intelligence built for my own portfolio first, then opened to users. Solo end to end (discovery, agents, UI, live users). Core principle: if the model cannot explain the signal, it does not ship. AI safety by design.

Anand Creations - AI Products & Discovery Practice · <https://anand-creations.com>06/2024 - Present

Founder & Principal Builder

Independent studio and home for the GenAI products I design, discover, build, and ship on my own (Proplab, PulseView, SwissNRI). Concept to customer, discovery to prototype in days.
