Users Served

GTM Engineer by practice: I build the internal AI-powered tools GTM teams use. At LumApps I own the production multi-agent outbound system on TypeScript, Python, LangGraph and Google ADK. Unified Salesforce, HubSpot, Pendo and product usage into one time-aware store (AI Brain), shipped agents that Sales, RevOps and CS actually use, and instrumented every workflow with evals, tracing and adoption metrics. Result: 2x open rates, 2x approved opportunities, \$1M forecast quarterly. Prior GTM launches co-owned at Beekeeper (Employee Referral \$1.5M+ revenue, GenAI demo tooling for sales), 3 AI products founded solo. MBA, 4 conference talks, bias to ship trustworthy systems fast.

WORK EXPERIENCE

LumApps · Lead AI Engineer (GTM Systems) [▶ Watch demo](#) 03/2026 - Present

TypeScript Python Node.js React (adjacent) LangGraph Google ADK MCP Salesforce HubSpot CRM Integrations
Multi-Agent Systems Prompt Design Evaluation Pipelines Human-in-the-Loop Data Governance GTM Engineering
RevOps Partnership

- Built the AI-powered internal system Sales and RevOps use daily. Multi-agent workflows on Python, TypeScript, LangGraph, Google ADK, MCP and AG-UI. 2x open rates, 2x approved opportunities, 2 to 3 hours saved per rep per day, \$1M forecast in quarterly revenue.
- Designed AI Brain, a temporal knowledge graph on Graphiti/Neo4j that unifies 5+ silos (Salesforce, HubSpot, Pendo, product usage) into one auditable time-aware store. Data quality, schema governance, and API design so GTM teams can actually trust the data.
- Own the reliability layer: eval pipelines, LangSmith tracing, cost-per-request instrumentation, HITL checkpoints, and adoption metrics. Partner with Sales, RevOps, and Ops on rollout; report to C-level on GTM outcomes.

Beekeeper AG · Senior Software Engineer (Technical Lead) & GTM Co-Owner 03/2020 - 02/2026

TypeScript Vue Node.js Java Python GTM Launches Sales Enablement Demo Tooling Salesforce Content Automation
Localization (70+ languages) Kubernetes AWS PostgreSQL Elastic Search

- Co-owned cross-functional GTM launches with Sales, PM, and RevOps: Seasonal Templates, Re-ignite Revenue, Sentiment Analysis, Employee Lifecycle. Every launch instrumented so we knew within a week if it moved pipeline.
- Built GenAI demo tooling that auto-composed personalized, on-brand demo content per account from Salesforce data. Direct sales enablement impact: improved demo speed and close rates.
- Architected Employee Referral System end to end (TypeScript, Vue, Node.js, Java, PostgreSQL). Became the platform's top revenue channel: \$1.5M+ generated, \$500K ARR. Enterprise deal execution and post-launch expansion.
- Replaced \$337K/yr in vendor translation costs with an in-house LLM pipeline shipped in 6 weeks. Turned an operational blocker into a durable internal tool, transitioned ownership to product team.

Tenity · Startup Mentor & Technology Evaluation Panelist 06/2024 - Present

Startup Advisory GTM Readiness AI Adoption Enterprise Sales

- Evaluated 20+ startups for seed-to-VC decisions on architecture, scalability, and GTM readiness.
- Advised portfolio companies on production AI adoption for GTM: prompt design, evals, and instrumentation to prove pipeline impact.

Dronistics (EPFL spin-off) · Founding Engineer 08/2018 - 03/2020

Founding Engineer Full-Stack Enterprise Partnerships Vue Node.js Java PostgreSQL AWS Docker Terraform

- Founding engineer at a startup. Full-stack (Vue, Node.js, Java, PostgreSQL, real-time APIs, AWS/Docker/Terraform) from empty repo to 500+ real-world deliveries.
- Turned prototype demos into enterprise partnerships (Unilever) and a CES showcase. Same discipline as internal GTM tools: ambiguous problem to shipped system fast.

Anand Creations - AI Products & Forward Deployed Engineering · <https://anand-creations.com>06/2024 - Present

Founder & Principal Builder

Independent studio and home for 3 AI-native products I design, build, and ship on my own (SwissNRI, Proplab, PulseView). Every product includes its own internal ops tooling I built to run it, effectively my own GTM engineering practice at small scale.

PulseView - Explainable AI Market Intelligence · <https://pulse-view.anand-creations.com>05/2025 - Present

Founder & Builder

Real-time AI agents that generate AND justify trading signals. Solo end to end: product, agent stack, UI, live users on real-time feeds. Explainability and evals baked in from day one.

SwissNRI - AI Cross-border Fintech · <https://www.swissnri.com>01/2024 - Present

Co-Founder & Technical Lead

AI-native cross-border compliance platform. RAG-grounded assistant with citations; compliance-first agentic design flags risk before users file. Community-led GTM through content and word-of-mouth.
