Companies Founded

Forward deployed engineer who runs technical discovery, builds POCs, and turns them into production wins that move revenue. At LumApps I own the AI stack that 2x outbound conversions and forecasts \$1M in quarterly revenue, presenting outcomes directly to C-level. Anand Creations is my forward deployed practice: embedding with teams, translating business problems into working prototypes, winning technical champions. Deep across data (PostgreSQL, ClickHouse, Elastic Search, Neo4j), cloud (GCP, AWS), and modern AI (LLMs, RAG, agentic systems), with a decade of speaking at conferences and demoing to executives.

WORK EXPERIENCE

LumApps · Lead AI Engineer

▶ Watch demo

03/2026 - Present

Solution Architecture POC to Production Executive Demos GCP Vertex AI Python SQL Neo4j Salesforce LangChain
LangGraph MCP RAG Multi-Agent Systems LangSmith Observability

- Led technical discovery through production for a global SaaS platform: agent architecture, POCs, executive demos, and cost-per-request instrumentation. Report directly to C-level on outcomes. 2x open rates, 2x approved opportunities, forecast \$1M in quarterly revenue.
- Designed AI Brain, a temporal knowledge graph on Graphiti and Neo4j that unifies 5+ data silos (Salesforce, HubSpot, Pendo, transcripts, product usage) into one queryable memory every agent reads and writes. Turned scattered enterprise data into a single, high-trust source for downstream AI.
- Own eval pipelines, agent tracing (LangSmith), and cost telemetry so every demo and POC comes with the numbers the buyer needs to greenlight.

Beekeeper AG · Senior Software Engineer (Technical Lead)

03/2020 - 02/2026

GTM Sales Enablement SQL PostgreSQL ClickHouse Elastic Search Kafka AWS Kubernetes Python Java
TypeScript Vue OpenAI LangChain Salesforce Grafana Datadog GitHub Actions Observability

- Co-owned GTM launches with Sales and PM (Seasonal Templates, Re-ignite Revenue, Sentiment Analysis). Each shipped with instrumentation so we knew within a week if it moved the needle. Employee Referral System became the top revenue channel (\$1.5M+ generated, \$500K ARR).
- Built GenAI demo system for Sales: auto-generates personalized content from Salesforce data so every pitch feels custom-built for that customer. Improved demo speed and close rates on real deals.
- Replaced \$337K in annual vendor translation costs with an in-house LLM pipeline shipped in 6 weeks. 12K+ assets translated; the buying team saw the ROI in the first invoice cycle.
- Led Search Platform revamp across 3 teams: redesigned indexing and ranking (Elastic Search, ClickHouse) with measurable engagement lift. Ran on-call and observability (Grafana, Datadog, Logz.io) for global production systems.

Tenity · Startup Mentor & Technology Evaluation Panelist

06/2024 - Present

AI Strategy Technical Advisory Data Platform Evaluation Startup Evaluation Executive Presentation

- Evaluated 20+ startups on technical architecture, scalability, and data/AI readiness to inform seed-to-VC investment decisions. Presented recommendations to investment committees.
- Mentored Opt Alpha on scaling high-frequency algorithmic trading systems; advised multiple portfolio companies on data platform choices, AI adoption, and building teams that ship.

Dronistics · Founding Engineer

08/2018 - 03/2020

Enterprise Partnerships Customer Onboarding Vue Java PostgreSQL AWS Docker CI/CD Real-time Systems

- Shipped end-to-end drone delivery platform (Vue, Java, PostgreSQL, AWS). Enterprise-grade reliability enabled partnership with Unilever and a CES Las Vegas showcase.
- Ran technical customer conversations from architecture demo through onboarding. 500+ real-world deliveries, 40% faster than incumbents, 99.5% safety record.

Anand Creations - Forward Deployed Engineering Practice · <https://anand-creations.com>06/2024 - Present

Founder & Principal Forward Deployed Engineer

Independent forward deployed engineering practice: embed with a customer team, run technical discovery, build POCs, and ship production AI end to end. Own the sales-engineering to delivery bridge for my own AI products (SwissNRI, Proplab, PulseView), same playbook I bring to any engagement.

SwissNRI - AI Cross-border Fintech · <https://www.swissnri.com>01/2024 - Present

Co-Founder & Technical Lead

AI-native cross-border tax platform for Swiss-Indian families. Ran discovery with users, built RAG-grounded assistant that answers DTAA, FEMA, and Swiss tax questions with citations back to the regulation. Zero-to-MVP in 3 months, 40% uplift in user satisfaction.

PulseView - AI Market Intelligence · <https://pulse-view.anand-creations.com>05/2025 - Present

Founder & Builder

Real-time market intelligence platform for retail traders. AI agents generate AND justify trading signals from technical and news data with explainability built in: every signal is traceable back to the source data, the same audit story enterprise buyers demand.

EDUCATION

Quantic School of Business and Technology	2019 - 2020
<i>MBA Business Administration</i>	
EIT Digital	2014 - 2016
<i>Master (Programme) Innovation & Entrepreneurship</i>	
Eindhoven University of Technology (TU/e)	2015 - 2016
<i>MSc (Netherlands) Embedded Networking</i>	
KTH Royal Institute of Technology	2014 - 2015
<i>MSc (Sweden) Embedded Systems</i>	
Amrita Vishwa Vidyapeetham	2010 - 2014
<i>Bachelor of Engineering Electronics and Communication</i>	

CERTIFICATES

Build LLM Apps with LangChain
DeepLearning.AI
Knowledge Graphs for RAG
Neo4j
AI Agents in LangGraph
LangChain & Tavily
Building Modern Java Applications
AWS
MongoDB for Java Developers
MongoDB University

AWARDS

Appreciation from John T. Chambers (ex-CEO, Cisco Systems)
Cisco Systems
Recognized for contributions to strategic projects within Cisco's ecosystem
AWS Cloud Credits for Research
Amazon Web Services (2020)
TI India Analog Design Contest Winner
Texas Instruments
KTH Opportunities Fund
KTH Royal Institute of Technology
